ECLSTS Follow Up

At this year's East Coast Train Show held in York, PA, a few of the members met up with Charlie Ro to personally acknowledge and thank him for his donation to the club of track and a #6 switch. The club appreciates Charles Ro Co. and their support of the large scale hobby.

Layout Open House on Saturday, 8/15/15

In an effort to bolster a somewhat light schedule of open gardens this summer, I have offered to oversee an open house of our Burdick's Driver's Village layout on Saturday, August 15, 2015, from 10:00 AM to 4:00 PM. I ask all members to join me at the layout that day to greet the public, run trains on the layout, and enjoy each other's company for the day. I especially ask for assistance from members who are not

opening their gardens to the public this year.

I believe this will give us open gardens in July, August and possibly September. Please wear your name tags, bring trains, trollies, hand cars, and other items (Thomas and whimsical vehicles) to run.

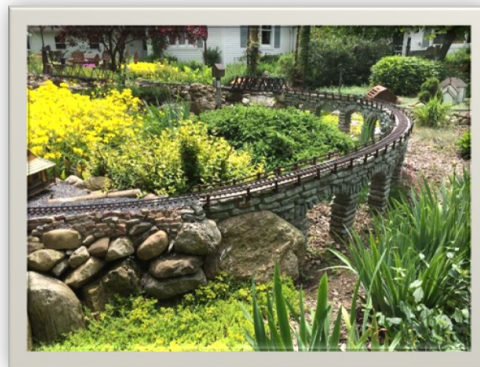

Thank you!

Garnsey Train Gardens

Garnsey Layout

On June 20th, Guy and Kathie Garnsey opened their layout to club members. Guy and Kathie live out in Scipio Center south of Auburn off Route 34. My father-in-law and I took the ride out on that Saturday afternoon to get a look at this large layout. Upon arriving, we were greeted by the Garnseys and were treated to a personal tour of the layout and their sprawling property, which includes a large wood working shop and a stable/riding arena for Kathie's love or horses.

You can see by the pictures that Guy is a master woodworker by the buildings and bridges he's produced. Many of the buildings he's made are replicas of actual structures in and around the Scipio Center area. Guy's railroad is predominantly 1/20.3 "F" scale and the motive power is battery operated. The stonework used to produce the viaduct that takes you around the perimeter of the layout is spectacular. Plantings on the railroad consist of dwarf spruce, seedling cedars from the parent trees in the yard, creeping thyme for ground cover and several types of perennials.

Thanks to Guy and Kathie for opening their home and providing the opportunity to view their gardens. Great job!

'15 Garden Railway Tours

The Central New York Large-Scale Railway Society invites you to visit their varied garden railways throughout this summer. We have spaced them throughout the season for your convenience. Garden railroading is a combination of gardening and model railroading. One may find model railroads operating in a shade garden, a miniature village, small layouts and large, a night operation...no two layouts are the same! For your convenience, you can obtain directions to each site by going to www.mapquest.com. For further information, we have included the host's

A few courtesies.. please don't block your host's or their neighbor's driveways, no pets, keep children under control, observe the open dates and times, and don't ask to use your host's bathroom. For those taking photos or videos, please do not obstruct their subject. Of course, Rule #1 is to have fun! Visit our web site at: www.cnylsrs.net
