

Central New York Large Scale Railway Society

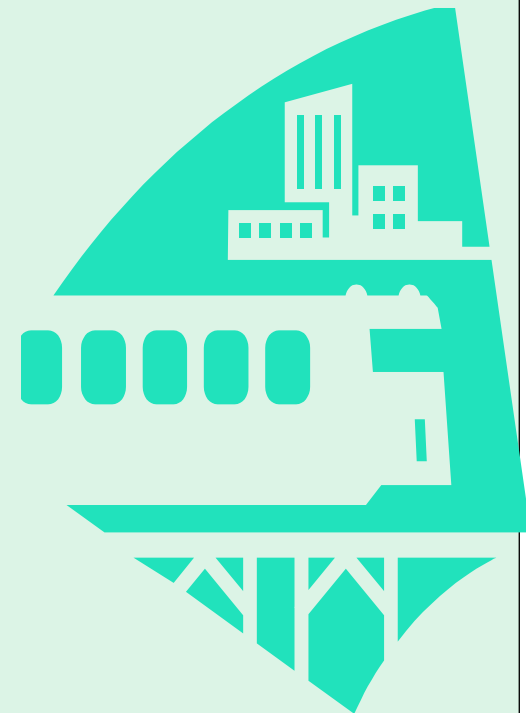

February Newsletter 2014

At the D.V. Club Layout

There has been a donation of a NCE DCC system from Sally Tullar to the club. There is a plan to upgrade the system from a tethered handheld to a radio controlled Cab. Also there will be a second Cab added for more than one operator with multiple engines. The system is currently at the NCE headquarters being upgraded.

Bob Loran and Dave Wierowski will be adding circuitry and two switches for utilizing both DC and DCC power operation. Bob has also added new LGB switch drives on the switches. Those currently working with these drives are switch #1 (old #1 & #2 crossover), switch #2 (old #2 & #3 crossover) Switch #3, tunnel/viaduct entrance, switch #4 entrance to the yard by the watch tower, #5 switch entrance from track #1 to the viaduct high line. All are switched by the Track #1 Revolution handheld.

Club Meeting -

March 15th

Saturday March 1st

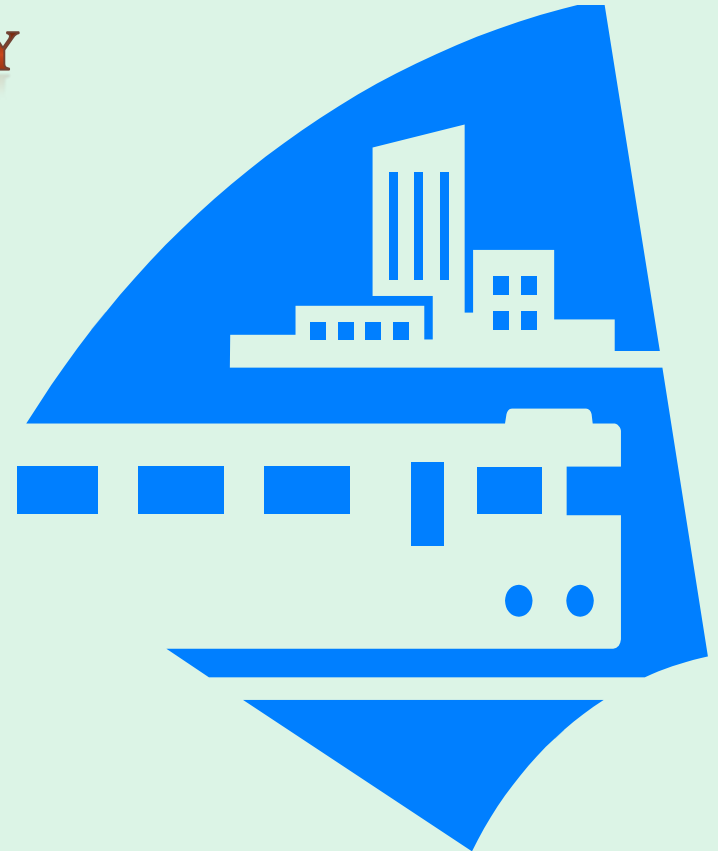

10 AM to 1 PM

**The Commons,
Burdick's, Driver's Village**

An event for families with young children; Thomas and James will operate on the large indoor layout. There will be loops of track on the floor as well. Something for the whole family and it's free.

Sponsored by the Central New York Large-Scale Railway Society, Inc. a New York State not-for-profit corporation.
